SANTA BARBARA COUNTY			
Arroyo Burro	Arroyo Burro watershed stakeholder group	www.communityenvironmentalcouncil.org/waterprograms/	A local stakeholders group, facilitated by Community Environmental Council and funded by the Wendy P. McCaw Foundation, has met to develop a long-term vision for improving the health of the watershed, as well as a list of guiding principles for how that vision should be implemented. The group's recommendations are available as a pdf file on CEC's website
Carpinteria Creek	Carpinteria Creek Watershed Coalition	www.carpinteriacreek.org	The Coalition is a group of local landowners, community groups, resource agencies, and individuals that is working together to remove barriers for steelhead passage, eradicate invasive species, plant native vegetation and reduce streambank erosion. It is also preparing a watershed plan for the Creek. Its website includes updates on its planning and restoration projects.
Carpinteria Salt Marsh	Land Trust for Santa Barbara County; UC Natural Reserve System	http://www.sblandtrust.org/carpmarsh.html	The Salt Marsh is a 230-acre site owned and managed by the UC Natural Reserve System, the Land Trust, and the City of Carpinteria. Information about the UC Reserve at the Marsh is available at http://nrs.ucop.edu/publications/spec/carpinteria.pdf ; A bibliography of articles about the Reserve is available at: http://nrs.ucop.edu/publications/transectbysubject/carpinteria.shtml
Mission Creek	Mission Creek Restoration Partnership	www.communityenvironmentalcouncil.org/waterprograms/	The MCRP is an unincorporated group of residential and institutional landowners, NGOs and public agencies who are working together to protect and enhance the middle and upper portions of Mission Creek and its tributaries. The group is currently working with the Santa Barbara Museum of Natural History on a demonstration project to restore streambanks and riparian woodlands, rehabilitate several bioswales, and replace paved surfaces near the creek. Staff support for the MCRP is provided by Community Environmental Council.
Santa Barbara County	Santa Barbara Audubon	http://www.rain.org/~audubon/sbasrest.html	On this website Santa Barbara Audubon publishes extensive information about its restoration work across the south coast of Santa Barbara County, including sites at Arroyo Hondo, Coal Oil Point Reserve, San Jose Creek, and Goleta Slough.
